

Brad Patzer

My family has resided in the Beaches area for 100 plus years. I have spent my life living and working in this area.

I currently am the chair in charge of Emergency Services for the area.

I have been an active member of the BBC for the last 35 plus years. I held the position of President for several years when the organization was still on Pine Road and planning for our future building that we are now in. I again held the President position on the Board in our current Centre from 2017-2020.

My future plan is to help the BCC grow and move into the future, continuing to provide a place for all of our community to come together and enjoy. This is an amazing centre with what has been the hub of our community for so many years and we need to have this continue for the generations to come.

Thank You
